

ISLE

ISLE is a dream pop duo consisting of Lise Low and Arjan de Wit.

Lise, the beautiful voice of the two, is an untamed dreamer and passionate soul enchanting everyone around her. Arjan completes ISLE as a musical innovator, with his tech knowledge and the looks of an inspirational young professor that is consumed with what he loves.

Together, they are on a quest to discover the ever-evolving world they like to call ISLE – a world filled with serene melodies, captivating stories and poetic videos. Reminiscent of Björk and Ane Brun, the atmosphere of ISLE rings with warm acoustic and astonishing sounds, connecting their love of organic tones to the experimental and the electronic.

During their live shows, their interactive light decor responds to the music and hand gestures and will lure you deeper into a realm full of imagination, possibility and space! ISLE is a place that reveals itself bit by bit, frame by frame, as they move, as they go out to play, and as they cast their spell on you.
